INTRODUCTION

Established by professional engineers who have vast experience in the field of Safety Management, Oil and Gas, Steel, Thermal & Marine Engineering etc. The main mission of Invotech is to provide International Standards of training to the young aspirants who desired to take safety as a profession. Invotech takes it very serious when it comes to provide services to the highest standards. We have been recognized for timely services with highest quality and satisfaction.

Invotech is approved Institute of DGFASLI, Ministry of Labour and Employment Govt. of India under Section 41 C(b) of Factories Act 1948 and affiliated to State Board Technical Education and Training Govt. of AP. Also it has the international accreditations of by IADC & IADC DIT USA, HABC UK, IAO USA and ECLBS UK.

These achievements speak volumes about the institution for its commitment and concerns of the clients. Our entire training programs are accredited and certified by the recognized bodies assures the students the strength of professional back up and genuine services. Hundreds of Invotech students are excelling in their profession serving in many countries regarded as land mark of our success. Partnering with Invotech, one of the worlds most accredited organization provides you a great platform in the field of Safety Engineering and Services and we wish you all a great success and bright future.

Salient Features

- All our courses are accredited and recognised by the relevant professional bodies national/international.
- All the training programs conform to the standards of OSHA and ANSI Z.490.1 of 2009 criteria for accepted practises in safety health and environmental training.
- Only institute in India to have the approvals of DGFASLI and SBTET in addition to the international accreditations.
- All our students receive international direct certifications from the accrediting organisations of USA & UK
- All certificates can be verified online. Eligible for Embassy stamping.
- Invotech offers certifications as required by factory act 1948.
- The certifications are ratified by Inspector of Factories through their companies on employment.
- Affordable fee structure, instalment facility.
- Eligible for jobs in Govt./Public/Private/MNC and Foreign Sectors.
- Thousands of Invotech students employed in India and abroad with high salary and perks.
- 10 years of successful track record with genuine services.
- India's only international branded institute with high professional reputation.

TRAINING PROGRAMS OFFERED

Industrial Safety 1 Year Regular Affiliated to SBTET Govt. of AP.

Factories registered under Companies Act have to employ Safety Officers under following regulations. Section 40-B of the Factories Act 1948 and Andhra Pradesh Factory Act Rules amendment reference GO Ms. No 36 Dated 24/06/2011 reference LR No.B2/13391/2009 dated 05/05/2011, Regulation 93 of the Dock Workers (Safety, Health and Welfare) Regulation 1990, and Section 38 of the Building and Other Construction Workers (Regulation of Employment and Condition of Service) Act, 1996 prescribe the appointment of Safety Officers.

Eligibility: Recognised Degree/Diploma in any branch of engineering/Graduation in Science with Physics/Chemistry.

Fire Safety

Regular Six months Affiliated to SBTET Govt. of AP.

Thousands of vacancies existing as firemen/fire officer in Govt./public/private/foreign sector as full time/permanent/contract basis. Hand some salaries and job opportunities in short span of time. Eligible to register in employment exchange added advantage.

Eligibility: 10+2 or any degree.

Advanced Diploma in Fire & Industrial Safety Engineering

1 year regular Accredited and certification by IADC USA program ID : #0300922 USA.

India's only and most prestigious industrial safety diploma level training program having international certification from IADC USA. For more than 75 years of experience in the industry, IADC operates specially designed accreditation programs that are recognized throughout the world. These programs have been developed to ensure the contents of critical training programs adhere to recognized industry standards: Complete syllabus covers topics of DGFASLI, SBTET and international criteria for safety & health training requirements.

Eligibility: SSC to PG.

PG Diploma in Health Safety

1 Year Regular Accredited by IAO USA and ECLBS UK

The course content is meticulously designed to meet all the national and international standards in health safety environmental training and conforms to OSHA and ANSI Z 490.1 of 2009 criteria of safety training.

Eligibility: Any graduation

Competent Supervisors Course

4 weeks regular DGFASLI MINISTRY of LABOUR & EMPLOYMENT GOVT. of INDIA

Specialised course for Supervisors in health safety, working in hazardous industry. Approved and certification by Directorate General Factory Advise, Service and Labour Institutes, Ministry of Labour and Employment Govt. of India (under section 41 C (b) of Factory Act 1948. A mandatory training program for which industries have sponsor for training as per the above mention Factory Act for the industries working with hazardous materials.

HABC is a family-run business, operating on the core values of quality, value, service and integrity.

HAZWOPER 24hrs Accredited by IAO USA and ECLBS UK

This course is designed for hazardous waste and emergency response workers. As per 29 CFR Part 1910.120 (e) require employees to undergo HAZWOPER training prior to entering or beginning work on an uncontrolled hazardous waste operation.

Eligibility for this training.

- New Employees Hazardous Materials Technicians
- Hazardous Materials Specialists On-Scene Incident Commanders
- Management and Supervisors Anyone seeking a job in this field

Industrial safety is an important factor as it safeguards human life, especially in high risk areas, where a simple mistake can be fatal & catastrophic. Induction training programs in safety are aimed to reduce risks to people, and processes. Maintaining a safe and healthy working environment is not only an important human resources issue, it's the law. Training and education in this area is very essential at every level whether they're entry-level workers, seasoned veterans, supervisors, or plant managers, the employees need to understand health and safety risks, the steps they need to take to minimize those risks, and common safety standards and compliance procedures. This is only possible when proper awareness is created by education and training.
